

S MANOJ PRABHU

Frontend Developer | UI/UX Designer | Java Developer

Email: manojprabhu0707@gmail.com | Phone: +91 9677518268 | Polur, Tamil Nadu, India
GitHub: github.com/manojprabhu07 | LinkedIn: linkedin.com/in/manojprabhu07

PROFILE

Frontend developer and UI/UX designer focused on accessible, production-ready product interfaces, with practical depth across Figma-to-code delivery, Java/Spring Boot services, and applied machine learning. Open to frontend, full-stack, and collaborative product roles.

EXPERIENCE

Project Intern - Infosys Springboard

Sep 2025 - Nov 2025 | Remote

Full-stack internship on a Dynamic Ride Sharing and Carpooling Platform.

- Built a full-stack Dynamic Ride Sharing and Carpooling Platform using Java, Spring Boot, and MySQL.
- Implemented 8+ RESTful APIs for user registration, trip matching, booking, and route tracking.

UI/UX Design Intern - Fluezen Technology

Jan 2024 - Mar 2024 | Chennai, Tamil Nadu

- Designed and delivered 10+ mobile and web UI screens in Figma within a two-month sprint.
- Conducted usability testing across 3 iterative design cycles, reducing handoff time by about 25%.

UI/UX Design Intern - Kaashiv Infotech

Jun 2023 - Aug 2023 | Chennai, Tamil Nadu

- Developed a Figma component library of 20+ UI elements, reducing screen design time by 30%.
- Designed mobile application screens applying Material Design principles and 8-point grid systems.

SELECTED PROJECTS

Prediction of Perpetration Attack | Role: ML model building and evaluation | Outcome: XGBoost reached 85% classification accuracy

Four-model supervised evaluation (XGBoost, SVM, Logistic Regression, Gradient Boosting) on a cybersecurity dataset. Stack: Python, Scikit-learn. Link: github.com/manojprabhu07/Research-Papers-Final-Year-Project

Food Delivery Mobile App | Role: Product design lead | Outcome: 15+ production-ready screens

Onboarding, discovery, cart, and order-tracking flow refined across 2 usability review cycles. Stack: Figma, Material Design, Mobile UX.

YouTube Auto-Uploader & Autonomous AI Content Studio | Role: Lead backend and automation architect | Outcome: production-ready autonomous media pipeline

Multi-channel monitoring, vertical Shorts generation, AI metadata, bilingual localization, deduplication, and scheduling. Stack: Python, YouTube Data API v3, Gemini, Groq LLaMA, FFmpeg, Render.

Polur Charm | Role: Full-stack frontend developer | Outcome: active bilingual travel and civic guide

Local discovery, transit hub, safety utilities, and gamified heritage quests. Stack: React 19, TypeScript, TanStack, Tailwind CSS, i18n, SEO. Links: polurcharm.com | github.com/gokuuchihatamil/polur-charm

Smart Aroma Diffuser | Role: Research prototype | Outcome: FLC 92.5% mean accuracy, 85.2% mean efficiency

Fuzzy Logic Control versus time-based diffusion under changing temperature and humidity. Stack: Fuzzy Logic Control, Sensors, IoT, SPSS.

SKILLS

Languages: Java, JavaScript, Python, SQL

Frontend: HTML5, CSS3, React, TypeScript, Tailwind CSS

UI/UX: Figma, Wireframing, Prototyping

Backend: Spring Boot, REST API, MySQL

Tools & Cloud: Git, GitHub, VS Code, Firebase, Oracle APEX

Applied ML: XGBoost, SVM, Logistic Regression

EDUCATION

B.Tech, Information Technology | Saveetha School of Engineering, Chennai | CGPA: 8.0 / 10.0 | Sep 2021 - Present

HSC: 80% | SSLC: 79%

CERTIFICATIONS & TRAINING

Oracle APEX Cloud Developer Professional (1Z0-771)

IBM Artificial Intelligence Fundamentals (SkillsBuild)

NPTEL Introduction to IoT

Infosys Springboard Internship 6.0 Certificate
